Action Taken on Feedback System on Academic Performance and Ambience of The Institution And Syllabus and It's Transaction

Academic Year 2019-20

Action Taken on Feedback System on academic performance and ambience of the institution and syllabus and it's transaction in the Academic Year 2019-20. The feedback with respect to academic performance received from the employers reflects that the latest technologies should be incorporated and offered to the students. Feedback by the students which was collected and analysed also shows that latest technologies should be taught to them which in turn would help them with job opportunities or further studies. analysis of feedback from alumni also reflects the same, After identifying the curriculum Gaps, teachers suggested for new courses to be offered in the curriculum, Considering these a report has been prepared and placed in the Department Academic Committee for further proceedings. Following are the various activities which were executed in line with the suggestions given by the committees.

Sub: Feedback taken on the academic performance and ambience of the institution from various stakeholders and requesting JNTUH to consider the outcome of feedback and incorporating at appropriate level as demand fit — Reg.

Respected Sir

DR.VRK Women's College of Engineering and Technology (College Code: H8) has collected feedback on the academic performance and ambience of the institution from various stakeholders (faculty, students, employers and alumni), analyzed and necessary actions have been taken at the institute level.

I am very happy to submit the following information to strengthen the academic performance, curriculum and syllabus. For that, our institution is fulfilled the infrastructure as per requirement of AICTE, JNTUH, In addition to that, if the University is introducing the following valid input collected from Teachers, Students, Employers, and Alumni on curriculum that will be highly beneficial to all the stakeholders for further improvement. For that, the curriculum and syllabus may incorporate the following concepts / recent technologies

1. Quantum Computing and Virtual Reality ((B.Tech - CSE)
2. Power System Simulation lab (B.Tech - EEE)
3. Electrical Machine Design (B.Tech EEE)
4. Electrical Machine Design (B.Tech - ECE)
5. Python Programming (B.Tech - ECE)
6. Basic Components of Electrical & Electronics Engineering (B.Tech - S&H)
7. Ethical Hacking (M.Tech - CSE)
8. Software Quality Assurance and Management (M.Tech - CSE)

These technologies and new subjects on industry 4.0 would certainly enable majority of the engineering graduates for employment opportunities and to build their career further.

I hope you will consider our request and take initiative to introduce the above mentioned technologies and courses as part of JNTUH curriculum by forwarding to BOS, Academics, JNTUH, Hyderabad.

Thanking You

Yours faithfully
