Action Taken on Feedback System on Academic Performance and Ambience of the Institution

Academic Year 2022-23

Action Taken on Feedback System on academic performance and ambience of the Institution in the Academic Year 2022-23. The feedback with respect to academic performance received from the employers reflects that the latest technologies should be incorporated and offered to the students. Feedback by the students which was collected and analyzed also shows that latest technologies should be taught to them which in turn would help them with job opportunities or further studies. Analysis of feedback from alumni also reflects the same, after identifying the curriculum Gaps, teachers suggested for new courses to be offered in the curriculum, considering these a report has been prepared and placed in the Department Academic Committee for further proceedings. Following are the various activities which were executed in line with the suggestions given by the committees.

Following are the various activities which were executed in line with the suggestions given by the committees

Proposal was sent to JNTUH for including new courses in the upcoming curriculum so that the curriculum gaps identified by our faculty shall be addressed.

Conducted a campus placement drive for all IV-year students

Sub: Feedback taken from various stakeholders and requesting JNTUH to consider the outcome of feedback and incorporating at appropriate level as demand fit —
Reg.

Respected Sir

DR. V.R.K Women's College of Engineering and Technology (College Code: H8) has collected feedback on curriculum from various stakeholders (faculty, students, employers and alumni). The feedback on curriculum has been collected, analyzed and necessary actions have been taken at the institute level.

As an affiliated institution with JNTUH, our institute is bringing this outcome to the notice of the university for kind perusal and consideration to take necessary action. The University may incorporate at an appropriate level as deemed fit.

I am very happy to submit the following information to strengthen the curriculum and syllabi to meet the industry 4.0/Knowledge 4.0, as strengthening the human and physical infrastructure to meet the industry 4.0 is vital at this time. For that, the curriculum and syllabi may incorporate the following concepts / recent technologies

1. Predictive Analytics with R Programming (CSE —B.Tech, M.Tech)
2. Electrical Engineering Materials (B.Tech EEE)
3. Sprintonics (B.Tech ECE)
4. Ethical Hacking (M.Tech - CSE)
5. Software Quality Assurance and Management (M.Tech CSE)

These technologies and new subjects on industry 4.0 would certainly enable majority of the engineering graduates for employment opportunities and to build their career further.

I hope you will consider our request and take initiative to introduce the above mentioned technologies and courses as part of JNTUH curriculum as deemed fit.

Thanking You,

Yours faithfully
